DT01 Rec'd PCT/PTC 2 9 DEC 2004

Amendments to the Claims:

Ţ

The following listing of claims will replace all prior versions, and listings, of claims in the application:

1.-7. (Canceled)

- 8. (New) A catalyst carrier comprising:
- a ceramic substrate composed mainly of ceramics; and
- a pre-coat layer applied on the ceramic substrate,

wherein the pre-coat layer comprises titanium oxide (TiO₂) in an amount of at least 30 mass %.

- 9. (New) The catalyst carrier according to claim 8, wherein at least a part of said TiO₂ is rutile type TiO₂.
- 10. (New) The catalyst carrier according to claim 9, wherein a ratio of the rutile type TiO₂ to the whole TiO₂ is at least 50 mass %.
- 11. (New) The catalyst carrier according to claim 8, wherein an amount of the precoat layer per unit volume of the catalyst carrier (amount of the pre-coat layer/volume of the catalyst carrier) is 5 to 200 g/liter.
- 12. (New) The catalyst carrier according to claim 8, wherein the ceramics is cordierite.
- 13. (New) The catalyst carrier according to claim 8, wherein the ceramic substrate is a honeycomb structure.
 - 14. (New) A catalyst body comprising:

a catalyst carrier having a ceramic substrate composed mainly of ceramics, and a precoat layer applied on the ceramic substrate, the pre-coat layer having titanium oxide (TiO₂) in an amount of at least 30 mass %; and

alkali metal and/or alkaline earth metal loaded on the catalyst carrier.
